**Importance:** High

The revised cancer hazard sections of the BaP document are attached for your review. Note that even though only the cancer hazard has been revised here, the other sections are also retained so that page and Table numberings are not messed up. Only pages 1-52 to 1-91 are to be reviewed.

I understand Vince prefers to see the version with track changes and comment bubbles on so as to know the changes made. Thanks to the team for the hard work!
